

## **BTSZ LEADERSHIP SCHOLARSHIP**

The Baptist Theological Seminary of Zambia is filled with students who desire to study the Word and engage in ministry, but many of our students struggle to finance their education. With these challenges in mind, the faculty of the BTSZ founded the Leadership Scholarship in 2018 to aid students and encourage practical scholarship which supports the Zambian church. To this date, over K10000 has been awarded, thanks to supporters like you. If you value the future of the church and its leadership in Zambia, would you consider regularly contributing to this critical endeavor, as we seek to support future Zambian leaders and further the kingdom of Christ?

### **How does the Leadership Scholarship work?**

When sufficient funds are available in the scholarship fund, the faculty publicly posts a call for scholarship applicants and the potential prizes.

The students are tasked with a short writing assignment. In November 2018, applicants were encouraged to select one of Paul's letters in the New Testament, discern the primary themes, and apply them into the Zambian church context in 1000 words.

After submitting their papers by the prescribed due date, the papers are evaluated by the faculty. If a particular student meets the academic, theological, and practical requirements and exceeds the quality of the other papers, they are awarded the Leadership Scholarship. A small number of students may also receive an honorable mention and a small prize.

All scholarship prizes are directly applied to the winning students' school fees. No physical cash is awarded.

### **How can you help?**
